CONTENT OF THE REPORT

The purpose of a disturbance report is to restore peaceful living, residential comfort, and safety for all residents of the housing community. The objective of Sevas Kodit Oy is not to resolve disputes between individual neighbors. The disturbance caused must have a broader significance and affect more than one resident.

The following points must be taken into account in the report:

1. The party causing the disturbance must always be identified with absolute certainty, i.e., the individual and the apartment.
2. The report must specify the type of disturbance in question, as well as the date and, if possible, even the time when the disturbance occurred. A detailed description of the disturbance and its timing helps to clearly identify the issue.
3. The nature of the disturbance must be described with reasonable accuracy, including whether the incident was isolated, occasional, or recurring.
4. If authorities have intervened in the disturbance, this must be mentioned, including the time and relevant details.
5. The report should include the views of several individuals from different households, along with the reporters' personal handwritten signatures.
6. Based on the report, the landlord will always assess on a case-by-case basis what follow-up measures Sevas Kodit Oy will take.
