

HOME Recycling Guide

WASTE COLLECTED SEPARATELY AT RESIDENTIAL PROPERTIES

COMBUSTIBLE WASTE

Waste Collected Separately at Residential Properties

Forexample

- Eggshells 

- Dirty plastic and cardboard packaging, and polystyrene foam sheets
- Plastic products, such as toys, plastic dishes and freezer containers
- Used hygiene products, such as sanitary pads and diapers
- Other non-recyclable waste suitable for incineration

BIOWASTE

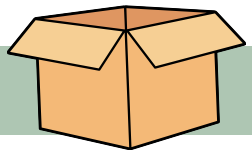

Forexample

- Food scraps and other food waste
- Coffee grounds, coffee filters and tea bags
- Fruit and vegetable peels

Please note!
Eggshells must be disposed of as combustible waste because their hard shells do not decompose. Instead, they harden and cause harmful blockages at the biogas plant.

PACKAGING WASTE

To the housing company's collection bin, a recycling point, a waste station or an RE recycling point

Forexample

- Milk and juice cartons, cereal boxes and biscuit boxes
- Toilet paper and kitchen paper roll cores
- Paper bags and carrier bags
- Cardboard boxes and other household cardboard packaging

Empty, clean, dry, flattened and nested inside one another.

PLASTIC PACKAGING

Forexample

- Food and detergent packaging
- Plastic bags and wrappers
- Plastic bottles, canisters and containers
- Polystyrene foam packaging

Empty, clean and dry. Caps and lids removed and sorted separately.

GLASS PACKAGING

Forexample

- Glass jars and bottles

Empty, clean and dry. Remove caps and lids.

METAL PACKAGING

Forexample

- Food cans, aluminium trays and foil
- Metal lids, caps and closures
- Completely empty aerosol cans
- Other small household metal items

Empty, clean and dry.
